END OF BALKAN WAR
BELIEVED TO BE NEAR

Preliminary Peace Conference
to Begin in Bucharest Early
Next Week

LONDON, July 26.—Austrian diplomatic representatives at Athens and Belgrade have notified the Greek and Serbian governments that they must cease hostilities immediately. They have warned Serbia that Austria will not permit Bulgaria to be humiliated. It is generally believed here that the warning is merely to enforce an armistice for consideration of peace proposals. It is unofficially reported that if the mandate is ignored a Roumanian army, acting under Austrian and Russian instructions, will present an attack on Sofia. If the report is true that Russia and Austria have combined to stop the war it is believed hostilities are near to an end.

PEACE DELEGATES ARE
OFF FOR BUCHAREST
BELGRADE, July 26.—The Serbian, Montenegrin and Greek peace delegates started for Bucharest from here today on a river steamer. The preliminary peace negotiations will begin in Bucharest Monday or Tuesday. Neither Greece nor Serbia has yet signed the armistice agreement consenting to a cessation of hostilities with Bulgaria. They will demand full terms or continue the war, according to unofficial declarations of their envoys.

Greeks Take Dedagsten
ATHENS, July 26.—A wireless said the Greek fleet has occupied Dedagsten, routing the Bulgarian defenders. The Bulgars, it is reported, assassinated the leading men and set the town afire.

May Occupy Armenia
LONDON, July 26.—It is unofficially reported in government circles that the powers have authorized Russia to occupy Armenia, and compel the Turks to withdraw beyond the frontier fixed by the treaty of London. Russian military movements in the southern provinces show increasing activity. It is believed the powers' reported decision explains this, although there is much nervousness in many quarters. The Russian foreign office is silent regarding military movements, according to St. Petersburg dispatches.

MILL WORK JOBS
FOR TWO SCHOOLS
TO BE DONE HERE

The S. H. Pendleton Mill & Lumber Co. has just closed two contracts for mill work that will bring \$10,000 to \$11,000 into this city, of which about half will be paid out in wages. One of these contracts is for the mill work on the Ontario grammar school, and the other is for the mill work on the Fullerton grammar school.

QUIET PREVAILS IN
STRIKE ZONE TODAY

CALUMET, Mich., July 26.—General Abbey arrived today to remain until difficulties of the striking miners are settled. The strike zone is quiet today, but threats by strikers to attack the Victoria White Pine mines, fifty miles southwest, caused the hurried dispatch of troops there. These mines are still operating.

AMERICANS WIN
IN TENNIS DOUBLES

WIMBLEDON, England, July 26.—The American tennis doubles team, McLaughlin and Hackett, defeated the English pair, Barrett and Dixon, in a hard fought match today, five-seven, six-one, two-six, seven-five, six-four. McLaughlin experienced a reversal of form, playing brilliantly. His service was impossible to handle, and his backhand work, weak yesterday, was par excellence. Hackett played a steady, consistent game. An immense gallery followed the play. The Americans are now favorites for the final matches to decide the possession of the Davis cup Monday.

Blazing Oil
Sent Broadcast
By Explosion

MALDEN, Mass., July 26.—Twenty-one employees of the New England Dyeing and Cleaning Company were reported missing following the explosion in the plant of two hundred gallons of naphtha, setting fire to the factory and eight other buildings. All available fire apparatus was rushed to the factories. The burning oil was scattered for a block around, and caused a dozen smaller fires, rendering work of the firemen hazardous. The thick smoke made a search for victims almost impossible. Hundreds of windows throughout the city were smashed by the concussion.

The missing men were later located, having escaped under cover of the dense smoke.

AFRICAN STYLES
BETTER THAN PRESENT.
SAYS REV. NETTLES

SPARTANBURG, Ga., July 26.—Absolute nudity, women is preferable to the present fashion of dressing, according to the Rev. Stephen A. Nettles, editor of the Southern Christian Advocate, who in an issue of his magazine today, strongly denounces what he calls "sensuality in woman's dress."

He says: "Really, we believe it would morally be far better for women to follow the custom of many African tribes who are robed in nothing more than beads of perspiration."

Mr. Nettles adds that he believes "one of the chief sources of this degeneracy of modesty in our women is found in bathing costumes."

MURDER MYSTERY ON
CHICAGO LAKE FRONT

CHICAGO, July 26.—The body of an unidentified woman about 30 years old was found on the lake shore near Rogers' Park today with a bullet hole in the head. A revolver lay near by. No powder stains were on the body. The police think the woman was lured to the park and murdered. The body was apparently dragged fifty feet and then thrown into the water. That there was a struggle was apparent from the condition of the clothing. A bent umbrella was found near by.

PRESIDENT'S CANNED

RESERVATION INDIANS

BANNING, Cal., July 26.—President Wilson delivered a special address to the Indians on the Banning reservation today on a phonograph brought by the Wanamaker Indian expedition, traveling in a special car under John Wanamaker's auspices. The object of the expedition is to cement ties of friendship between the Indians and the federal government, so far as possible. The expedition will visit all the reservations of the country, presenting to each an American flag.

The First Presbyterian Church is going to build a \$7,000 Sunday school building north of the church building. The new structure will be joined to the present church by corridors, but will not be built so that it can be thrown open and become a part of the main auditorium. It is planned to have the addition set apart so that it will be strictly a Sunday school department.

As a part of the plans for the change to be made, it is proposed eventually to make some changes so that the present Sunday school rooms will become a part of the main auditorium of the church.

Architect Frederick H. Eley is drawing plans for the \$7,000 addition, which will measure 42 by 60 feet, and will be composed of a basement and two floors. The new building will be arranged to meet the demands of the most modern Sunday school, with a large assembly room and plenty of class rooms.

The trustees of the church are arranging to finance the project. Today Attorney W. H. Thomas filed a petition to the superior court, signed by R. J. Thompson, chairman, and E. P. Stafford, secretary of the church board, asking for permission to mortgage the church property at the northeast corner of Sixth and Sycamore streets for \$5,000. The petition states that the church expects to expend \$7,000. Of that amount \$2,000 is already in the treasury. It is stated in the document that the loan will be made by Mrs. Emma P. Mosbaugh. The hearing of the petition is set for Aug. 15.

CAMINETTI
CASES TO
BE AIRD

Democratic Majority Consents
to Full Hearing on Floor of
the House

WASHINGTON, July 26.—Weary of a filibuster carried on in the House for a week by the Republican minority, the Democrats planned today to capitulate and permit the Caminetti-Diggs white slave case to have an airing on the floor. Attorney General McKeeney wrote the Democratic leaders that he doesn't object to the widest debate of his order postponing the case, which moved resulted in the resignation of Federal District Attorney John L. McNab of San Francisco. Discussion of the Caminetti case was set for next Wednesday. The case grew out of the elopement from Sacramento of Diggs and Caminetti, with two high school girls, leaving wives and babies behind.

Habener came up from Orange, and was turning at the crossing to head north. Lacy makes a habit of watching Habener quite closely, and in this instance he was keeping up the habit. Just as Habener started northward Lacy got in front of him and signalled him to stop as there were two or three automobiles traveling west at the crossings. Habener's machine slowed down, and Lacy thought it was stopping. He took his eye off Habener to cast a glance at the other automobiles. Just then Habener's machine took a notion to move forward, and Lacy looked back just in time to begin his side-step, which was performed with alacrity and thankfulness. Hereafter Lacy will watch this driver of the Orange auto stage closer than ever.

Habener does not take kindly to the publicity that has been given to his exploits. It was on Thursday of this week that he ran his auto 'bus into the rear of a competitor's machine on Main street near Fourth, and bumped that machine so hard that it bumped a third machine. He spent a part of his time yesterday visiting newspaper offices and telling people on the street that he was going to sue the papers for damages. He told City Marshal Jernigan he was going to sue the Register for \$1000 for hurting his business. By the time he got over to Orange his ire against the daily newspaper of that place had raised the price to \$5000.

He told Editor W. O. Hart of the Orange News that he was going to sue the News for \$5000. Habener declares a broken axle was the cause of the double-play collision at Fourth and Main.

Ruminating upon the advisability of cutting his salary to pay whatever damage Habener might get against him, Hart mounted his bicycle for a ride around the plaza at Orange. He observed an automobile coming toward him, and he slackened up to see which way the auto would turn. Just then a Stanley steamer, driven by A.

SUMMARY REMOVAL
THREATENS WILSON

Ambassador to Mexico Must Defend Actions or Get Fired--Thinks President's Plans Unsatisfactory

WASHINGTON, July 26.—Summary removal from office by the president in a measure responsible for the overthrow of Madero. Mr. Wilson said: "That's all politics and it is a theory that was long ago exploded to the satisfaction of the state department."

During the forty-minute conference the Ambassador was instructed to write a complete report of his actions since Madero's overthrow. All the confidential reports he has sent to the government were turned over to him. He will dictate his statement to Bryan's private stenographer. It is stated his retention or dismissal depends upon the brief he makes for himself.

It is learned the Ambassador's implied criticism of the administration in his interviews would result in his immediate dismissal if the administration did not fear to further complicate the present Mexican situation. The Ambassador's friends say if the president dismisses him he will demand a hearing before the senate foreign affairs committee claiming the present difficulty is due to lack of support being given him by the administration.

AMBASSADOR OPPOSES
PLANS FOR MEDIATION
NEW YORK, July 26.—Pausing here for a half day on his hurried Mexico-to-Washington trip in response to a summons from President Wilson, Henry Lane Wilson, American Ambassador to Mexico, announced his emphatic opposition to several plans under consideration by the state department for bringing about peace in the troubled Mexican republic.

At the start, Mr. Wilson gave his reasons why he considered the plan for a tripartite commission not a feasible one.

"That is a plan of John Barrett, director of the International Bureau of American Republics," he said.

"The Monroe doctrine pledges the United States to take care of the interests of American governments without the aid of any foreign country," he added. "Consequently, under the Monroe doctrine we cannot attempt to settle Mexico's affairs through the services of such a body as the proposed tripartite commission, since it involves calling in outside governments to help."

Referring to reports alleging that R. Hoefler, slid quietly in front of the bicyclist, and caught the handlebars with a fender, dumping the editor off on the pavement with neatness and dispatch, but without injury.

FREE SUGAR
MEANS RUIN

Senator Works Concludes Tariff Speech With Sharp Criticism of the President

WASHINGTON, July 26.—Declaring that the people at the polls will punish the makers of the Wilson Underwood tariff law, Senator Works yesterday afternoon completed his tariff speech, with a review of the disastrous effect the proposed bill will have on the beet sugar industry and with a sharp criticism of President Wilson for his activity in framing the measure and forcing its terms on Congress.

Free sugar at the end of three years, he said, spells the ruin of the beet sugar industry. He said that with a duty of 1 cent the beet sugar growers and manufacturers may be able to struggle along, but with a curtailed growth. He declared that the industry cannot survive with sugar on the free list, and that an intelligent revision of the tariff should be aimed at manufactured articles and not at products of the land.

In his peroration he reviewed President Wilson's part in the making of the present bill, and held that without the executive power of the secret caucus and the influence of the President, the passage of the pending bill would be impossible.

"I do not believe," said Senator Works, "that if it were not for the influence of the executive branch of the government, directed at the law-making power, and the coercive effect of the secret political caucus, the passage of this bill through either branch of Congress would have been possible. I take it for granted that this bill will pass this body substantially as it was framed in advance. This if newspaper accounts are to be credited, was done by a committee of Democrats and a Democratic President, or with the mutual agreement or concurrence of the two."

"It has been asserted and has been very generally believed that the President insisted that certain provisions should go into the bill and that other of its provisions are a compromise of views as between the

SAN FRANCISCO, July 26.—Two aged inmates of the San Francisco alms-house, managed a death-struggle today before their comrades could interfere. Fred Snider, aged 67, is dead from a bullet through the lungs, and John Jonkosky, aged 74, is bleeding to death from knife wounds over the heart.

The police declare that Jonkosky aroused Snider to make a bed in the old men's ward. Snider struck Jonkosky, stunning him. When the latter recovered he left the room, later returning with a revolver and renewing the quarrel.

When Snider struck again Jonkosky grappled and fired. The pair then fought to the death.

AUTOMOBILE TAX TO
MAINTAIN HIGHWAYS

Expected New Law Will Provide Upkeep for Entire State System

SACRAMENTO, July 26.—California's new automobile license tax law which becomes effective in January, 1914, will produce sufficient revenue to meet the maintenance expense of the \$18,000,000 state highway system until some other source of income is established, according to Austin B. Fletcher, state highway engineer.

Fletcher estimates that the new annual tax on motor cars will produce about \$750,000 a year. The Highway Commission, under the terms of the "Automobile Act," will receive half of this amount, or \$375,000. This will give the commission an average of \$150 for the maintenance of each mile of the 2700 miles of highway.

"For a few years, \$150 a mile will be sufficient to keep up the new highways," says Fletcher. "After that time a greater sum will be needed."

Fletcher says the splendid roads in New York, Massachusetts and other eastern states are due primarily to the money that is annually expended to keep them improved.

Fletcher has estimated that there are actually operated in California now about 75,000 gasoline and electric cars for business and pleasure. About 113,000 have been registered since the motor vehicle department for the registration of cars was established. Ten dollars a year will be the average sum paid by automobile owners, Fletcher believes. In addition, motorcycle owners are to be taxed \$2 for their machines.

Half of the motor vehicle collections under the new law must be paid to the counties in which the car or motorcycle is owned. The money is to be spent on county road improvement.

ADJUSTMENT OF
TRAINMEN'S TROUBLES
EXPECTED BY NIGHT

NEW YORK, July 26.—The adjustment of all the difficulties of the trainmen on eastern railroads is expected before tomorrow as the result of a series of conferences beginning last night and continuing until morning. All details except those of a minor nature have been arranged, according to an announcement today. The only point unsettled is the date of effectiveness of the new agreement.

TYRELL GETS NEW JOB.

SACRAMENTO, July 26.—State Senator Edward J. Tyrell of Alameda county was yesterday appointed attorney for the State Lunacy Commission at a salary of \$3000 a year. Tyrell's appointment was necessary because of the resignation of former State Senator Charles Cullen of Eureka. Tyrell will not resign his Senatorship.

PILES WILL BE THIRTY THOUSAND ENGLISH RESTING IN CLAY

WOMEN DEMAND FRANCHISE

Change Made in Plans for Concrete Pier Advantage to City

Huntington Beach News: At a special meeting of the city trustees held Monday evening the request of the Mercereau Bridge and Construction Company of Los Angeles, contractors for building the local pier, for permission to use concrete piles for the outer end—the last four hundred feet—without bulbs at the base was granted. Trustees Helme, Rosenberger, French and Seely voting affirmatively and Trustee Howard being absent. The action was taken upon the recommendation of Engineer Ernst Rottenburg of Los Angeles, designer of the pier. Consulting Engineer Thomas James of Santa Monica, and City Engineer G. W. Spencer of Huntington Beach, and the reason given was that the bed of the ocean, contrary to expectations, has been proven in the construction of the false work to be, below a depth of two feet of sand and gravel, solid blue clay. As a basis for their recommendation, the engineers agree that to jetty sufficiently to sink the bulbs of the piles to a depth of twenty feet as provided in the contract would create a space around each pile which would not be refilled by action of the ocean because there is not sufficient sand and gravel above the clay, and so the piles, below the ocean bed, would be held by water only instead of being supported by soil, for many years. The space could perhaps be filled artificially but to do this would not only be extremely costly but would also be in the nature of "guess work" as to its completeness, as stated by the engineers.

In order to offset the saving to the contractors in steel, cement and labor, by not using the bulbs, they will be required to add two steel rods to the reinforcement of each of the ninety piles required in the surface named and also to increase the diameter of these piles from twenty to twenty-two inches. The material for the moulds for all the piles having already been provided, the contractors will have to destroy them and build new ones of the proper diameter and this may delay the work somewhat besides putting the contractors to additional expense.

Engineers Rottenburg, James and Spencer were present at the meeting Monday evening to care for the city's interests, while Secretary John H. Zeitler represented the contractors, the Mercereau Bridge and Construction Company. The clay bed of the ocean furnishes a foundation for the outer pier practically as solid as stone, extending from seventeen to twenty feet as far as tested, with a probability of a still greater depth.

London Sees Greatest Demonstration Yet by Non-Militants—Working for Vote by Legal Methods

LONDON, July 26.—From all points of the compass London was invaded today by an army of women who voiced their demand for the vote, in one of the biggest suffrage demonstrations ever seen in England.

The invaders were not the W. S. P. U. Amazons familiar to Londoners, but represented the National Union of Women's Suffrage Societies, the largest and most influential of the various non-militant organizations, with a membership of 42,900. Some of them had "hiked" the whole of the 300 miles from Carlisle and Newcastle. Not all the members of the Union could make the pilgrimage, but with supporters and sympathizers from London and nearby towns it is estimated that fully 30,000 women converged on Hyde Park this afternoon to vote for a resolution, put from twenty platforms, demanding the immediate enfranchisement of women in Great Britain.

Mrs. Millicent G. Fawcett, president of the National Union, speaking from the center platform, declared that the people of England must realize now that there is a real demand for the vote. She was careful to explain that the great majority of suffragists have no connection or sympathy with the militants, who she said were a mere handful of violent and misguided women.

Each of the 460 societies forming the Union sent delegates, many of whom had been for from five weeks to a fortnight on the road. Meetings were held in all the towns and villages through which the pilgrims passed, and their numbers steadily increased as they neared the capital. Although in a few instances the "hikers" were roughly handled, and at one or two places their meetings were broken up by hooligans, generally there were manifestations of genuine interest and sympathy wherever they stopped.

One of the principal objects of the pilgrimage was to collect funds for the spread of woman suffrage propaganda by constitutional methods, and the leaders say the response was considerably larger than they anticipated.

Headed by bands and with banners flying the northern detachment entered London by the Great North

Road; the westerners, some of whom had marched from Cardiff and Bristol, by the Bath Road; the southerners by the Portsmouth Road, and the easterners by Watling Street. Their reception by the throngs lining the thoroughfares leading to Hyde Park was for the most part friendly, but in the rougher quarters there was some jeering and other expressions of hostility from spectators who see no difference between militants and non-militants.

"This has been one of the greatest obstacles we have encountered in our work," declared Mrs. Fawcett in an interview with the United Press. "All along the various routes our speakers have had to explain that woman suffrage does not mean destroying letters in mail-boxes, burning houses, or throwing bombs."

"The very word 'suffrage' to a great many persons invariably calls up ideas of violence and law-breaking, and the object of our marchers has been to destroy that association of ideas and to bring home to the people of every community through which they passed that the vast majority of those who have the cause of woman suffrage at heart are peaceful and law-abiding women who realize that the tactics of the militants are doing the movement great damage."

"The real strength of the non-militant movement is not fully appreciated because the good solid work our women are doing has never been adequately reported in the press. If our pilgrims had thrown bricks through windows in the various towns they visited, or had burned a few houses, the whole world would have rung with the story. But because the marchers were quiet and orderly they received little attention from the newspapers en route."

"The joyousness of self dedication to a great cause was the keynote of the pilgrimage. Every marcher had in her heart a deep sense of reverent happiness that it had been her lot thus to participate in one of the greatest reform movements in the world's history."

Tomorrow many of the pilgrims will attend the afternoon service at St. Paul's Cathedral, at Mrs. Fawcett's suggestion, to renew their vows of allegiance to the cause.

DISTINGUISHED MISSOURIAN LIKES CALIFORNIA'S LAWS

SAN FRANCISCO, July 26.—"The Progressive party of California is my ideal of a political party that has the interests of the people at heart. Its leaders are 'live wires,' who have a program to benefit the people of their state, and they are carrying out that program."

This is the verdict of Senator A. S. Phillips, the only Republican member of a special committee of the Missouri state senate which was recently in this city to study workmen's compensation legislation here, with a view to following the California law in preparing a statute for Missouri.

Senator Phillips is a precinct chairman and Republican leader in the city of St. Louis. He is a graduate of Princeton University, where he used to hear Woodrow Wilson lecture when the President was a college professor.

"Regardless of partisanship, I regard the important laws passed by your legislature last winter as wise and beneficial measures," said Senator Phillips. "They are far from being 'freaks.' The Missouri legislature passed laws that very closely resemble some of the 'ten commandments' which formed the most important accomplishment of the California legislature. Others that should have

been passed were defeated and will come up again in 1915.

"Our legislators knew comparative little about what you had done and were doing in California, but the social workers and humanitarian organizations had watched your progress and they sent a strong lobby to Jefferson City and had similar bills introduced."

"The opinion I have expressed regarding the Progressive party in this state and its excellent work was formed after I came to California and learned what you were doing."

Senator B. L. White, chairman of the committee and a Democratic leader in the legislature, spoke for the Democrats and highly praised Governor Johnson and the work of the legislature.

California reactionary papers have been making much ado over the 700 new laws that were approved by the Governor, and the 200 or more bills that passed both houses but received a pocket veto. Suppose we make some comparisons as to the work of the California and an all Eastern legislature.

The legislature of Massachusetts passed 519 bills and 300 resolutions. The governor vetoed only thirty-two

of the number, and ten were subsequently passed over his veto.

So much for the mere number of new laws. But the number of bills passed by a legislature does not represent new laws entirely. Appropriations for institutions already established and minor changes in the codes constitute a considerable portion of the bills.

California is a young state. The legislature must of necessity pass and amend more laws than are necessary in a state that has a century of legislative experience behind it.

The area and diversified interests of California are comparable to those of New England and half the Atlantic coast states. The legislature of California must exercise a legislative scope equal to that covered by the legislatures of half a score of smaller states. Yet, withal, the Massachusetts legislature passed more laws than the legislature of California. The imputation of excessive legislation so persistently laid at the door of the California legislature is not well founded.

There is still another fact of importance. A considerable number of the new laws in California are progressive in nature. They change the very fundamentals of our social and industrial organization. So far as we are aware, the legislature of the old Bay State did not include one distinctly progressive measure in the 519 passed.—Stockton Record.

California's regulation of public utilities, including the railroads, has been the most thorough and effective of any state in the union. With what intelligence and good judgment the railroad commission has performed this service may be judged by the high testimonial paid to California regulation by B. L. Bush, president of the Western Pacific road. In a speech in San Francisco, Mr. Bush said:

"The railroad men have changed. We have seen a new light. We ask your co-operation. I want to say to you gentlemen that the transportation business of this country is as much yours as it is ours, or as it is our stockholders."

"The transportation problem in this country has reached a point where it is a government one. Every interest in this country is protected except the transportation companies."

"Of all the states, California has been the one which has been most fair in its treatment of railways. That speaks well for the people of this state and for the railroads. We have not seen California swing to such extremes as have been seen in some other states where perhaps the railroads have treated the people better."

—If seven doctors had told you, as they did C. E. Blanchard of La Grange, Calif., that you had but a short time to live on account of kidney trouble, what would you do? He says: "I had kidney trouble so bad, that I had to go to the hospital. Had seven different doctors, and they said I had but a short time to live. I took Foley Kidney Pills and they completely cured me and I can not speak too highly of them." Cost less than the doctors, but accomplish more. Contain no habit forming drugs. SUGAR MAKING TO BEGIN AUGUST 4

Season Which Lost About 100 Days is Expected to be Record Breaker

POMONA, July 26.—The annual sugar-making campaign at the sugar factory at Chino will start Monday morning, August 4, and from there on to the end of the run of about 100 days, there will be no stop to the machinery. Most of the men, who will work at the factory during the coming campaign, have reported for work and are in readiness for the season. The tests made so far have shown the sugar beets to be rich in sugar. The first lot will come from the beet fields of Los Angeles and Orange counties and from Chino where the plowing will commence Monday. The outlook now is for a record-breaking year, as the crop is extra large and of excellent quality, is the statement of the officers of the concern.

BIG PRIZES OFFERED IN TOLEDO REGATTA

PUT-IN-BAY, Ohio, July 26.—Perhaps the most valuable prizes ever offered in a single regatta will be competed for next week here and at Toledo in a program of twenty-four power boat races. More than \$15,000 in trophies and cash prizes has been offered through the Perry Centennial committee. The opening events will be held tomorrow. The cash prizes alone amount to nearly \$10,000. The value of the other trophies is \$5,500. There are twenty-three trophy cups. The winner of the free-for-all hydro-aeroplane contests at Toledo will receive \$1,500 cash. Second and third will receive \$800 and \$500 respectively.

NOT ENEMY OF THE HOME

Naval Secretary Holds Woman
Suffrage Will Not Lower
Family Ideals

Thinks Present Generation Will
See Women Voting in Every
State of Union

SAN FRANCISCO, July 26.—Secretary Daniels of the Navy Department told the women of the San Francisco Civic League last night "that, whatever the opinion of individuals about the wisdom of woman suffrage, 'we may as well get ready for the inevitable, for women are going to vote.'"

"Only last month," he continued, "I have given them the ballot for all except constitutional offices, and the present generation will witness complete woman suffrage in every state of the American Union. And when it comes, the Constitution will not be broken and the home will not be destroyed."

"Yours is the first state," said the Secretary, addressing himself directly to California, "with big population, with seaports of prime importance and cosmopolitan population, to give the ballot to women on the same terms with men. How will it turn out? Every foe as well as every friend of woman suffrage is watching you. Is it too much to say that the question for this generation is hanging in the balance, to be determined by the wisdom of your exercise of the ballot?"

"The world is only now fully awakening to Jefferson's conception of government. This chart of human liberties first of all declares to the State that, paramount to the protection of infant industries, is care for the infants of the republic."

"For 6000 years they have been permitted to die by impure milk, impure food, disgraceful sanitary conditions, unhealthy surroundings, death-hole tenements, and typhoid and other preventable germs. We have spent millions to protect infant industries until they have grown into giants and we continue to feed them. We have spent only a pittance to protect the infants."

"It is only in recent years that the conscience of the country has been aroused to the protection of girlhood, and the suppression of the white slave traffic has been vigorously undertaken by local, state and Federal governments. Juvenile courts have come out of this new enlightenment. 'If the women of California exercise the right of suffrage for health, sanitation, the protection of the child, the women, the home; if they stand against graft and hysteresis; if they sentence immoral men to political St. Helens; if they oppose privilege and the rule of protection that lets one man get rich at the expense of the many; if they set their faces for the real reforms, who will dare say that suffrage has not justified her children?"

"The only argument against suffrage that has had and still has, weight has been the fear that women would neglect the home for the hustings, that the family life would be less retired and less wholesome, that race suicide would ensue and that the modesty and grace of our women would give place to self-assertiveness and grossness. Of course, if such results should follow, woman suffrage would be worse than the murrain or the locusts of Egypt, and the plague would destroy the human race. But did God make man and woman capable of forgetting the object of existence? Can love and marriage and the family ever fail to be the trinity that will have no rivals? To doubt that the family will always be the center is to doubt the wisdom of God."

DISCUSS PLANS FOR GREAT CHRISTIAN CHURCH COLLEGE

LONG BEACH, July 26.—The arrival here of C. C. Chapman of Fullerton, the man who has offered the Christian churches of Southern California \$50,000 as his donation toward a fund of \$300,000 with which to build a denominational college in the Southland, and who for nineteen years has been prominently identified with the growth of the Christian church in the West, was greeted with cheers by the several hundred members of the Christian Women's Board of Missions in session at First Christian church in this city.

Mr. Chapman, who has been for several years the president of the Christian Missionary Society of Southern California, presided at the joint meeting with Mrs. Annie Paul Casen, president of the Women's Board at the Forum last night, and in fraternal greetings spoke of his desire for the erection of a seat of learning to be under the direction of the Christian church, yet broad enough in its policies to give to Southern California a college second to none in this country.

The feature of today's session will be the annual report of State Secretary M. R. Chubb of Los Angeles. This will show that there have been 1145 persons added to the Christian churches of Southern California by baptism during the year, and 2356 added otherwise; that the present

membership of the church is 16,259; that there are 12,948 enrolled in the Sunday schools, with an average attendance of 9190.

Secretary Chubb will also announce that there was raised for local church work, \$285,000, and for missions, \$14,499. The value of church property, according to the secretary's report, is \$1,157,825, and that the State Missionary Society has assisted twenty-nine mission churches in supporting pastors, organized one new church, held fourteen evangelistic meetings, and has raised for state missions, \$13,050.

The total enrollment of the Christian Women's Board of Missions, the three days' session of which closed last night, almost reached the 500 mark and exceeded by more than 100 any former convention.

The nomination committee of the board recommended the following officers for the ensuing year a recommendation that was later adopted when the nominees were unanimously elected:

President, Mrs. Annie Paul Casen of Pomona; vice president, Mrs. Nettie Poor of Long Beach; corresponding secretary, Mrs. G. M. Anderson, Los Angeles; recording secretary, Mrs. Annie Lobingier, Santa Monica; treasurer, Mrs. Reeta Greedy, Los Angeles; advisory board, Mrs. Russell S. Thrapp, Mrs. S. K. Chapman and Mrs. Holbrook.

Not Feeling Just Right? Read This!

Do not think that Mr. Jack Mallos of Copperopolis, Calif., would make this statement, if it were not absolutely true. He says: "I thought I would have to sell my business, for I could hardly stand on my feet and when sitting down could hardly arise on account of pain in my kidneys. I tried three bottles of Foley Kidney Pills and they entirely cured me, and I have had no kidney trouble since." REDLANDS PEDDLERS SAY MERCHANTS ARE PROMOTING BOYCOTT

REDLANDS, July 26.—A fight is on between the merchants of the city who handle fruits and vegetables, and the truck peddlers who go from house to house with the "green things" of the season. The peddlers charge that the merchants are attempting to boycott them.

The peddlers assert that the merchants are telling the truck farmers that they will not buy their truck if they sell also to the peddlers and that the boycott is having the desired effect.

"We are not able to buy fruits and vegetables as easily as before," complained one of the peddlers today. The merchants assert there is no boycott.

Rid Your Children of Worms.

You can change fretful, ill-tempered children into healthy, happy youngsters, by ridding them of worms. Possessing, itching, grinding of teeth, crying out while asleep, accompanied with intense thirst, pains in the stomach and bowels, feverishness and bad breath are symptoms that indicate worms. Kickapoo Worm Killer, a pleasant candy lozenge, expels the worms, regulates the bowels, restores your children to health and happiness.

Mrs. J. A. Brislin, of Elgin, Ill., says: "I have used Kickapoo Worm Killer for years, and entirely rid my children of worms. I would not be without it." Guaranteed. All druggists, or by mail, Price 25 cents. Kickapoo Indian Medicine Co., Philadelphia and St. Louis.—Advertisement.

DRAMA ABROAD AND AT HOME

By Beau Rialto

NEW YORK, July 26.—They are all back again, the stage folk, watching both sides of Broadway for a next season's engagement. August 1 is the traditionally accepted time for actors and actresses other than stars to begin hunting for engagements and most of them save those who have good things in stock are forehanded enough to get to the Big Town a few days ahead of time. It's the early bird that gets the worm, they figure, and by the same token, it's the early worm that gets caught, in the opinion of the wary managers, most of whom take refuge from the deluge of applicants by remaining out of town or in the seclusion of their private offices until the time comes when it is imperative that they engage their winter players.

August, therefore, is the playtime of the actors and actresses who are aptly called the "children of the stage." They crowd the Rialto, which is the name given that part of Broadway holding the bulk of the town's theaters, and all the managers' offices, from noon until night, and noisy reunions occur almost every moment. Friends of a former season meet for the first time in months, maybe years, and they just have to stop and talk it over. These are busy days for the sidewalk policemen, around Forty-second street since the edict against street loitering has been rigidly enforced. The stage folk are habitual "standees" when on Broadway.

The stage folk are all optimists, that is, when they are being looked at, though a close student of human nature, if a bit unsympathetic, might call them "four-flushers." It is rather an amusing study in physiognomy, to watch the hurrying crowds of actors these late summer afternoons. If they happen to be alone, hurrying on their weary rounds from agency to agency, one is more apt than not to see a worried, anxious look on their faces, a furtively hunted expression about their tired eyes. But at the corner they meet friends. An amazing change of countenance takes place with lightning-like rapidity. The lines of anxiety disappear as if by magic and their faces become wreathed with smiles and confidence.

No, they have not taken an engagement just yet, because it is so early in the season, and they want to see some of the new Broadway shows before "going out," and besides they are undecided between two perfectly bully engagements. Oh, yes, several managers have made them offers, but one show is to go all the way to the coast, working fifty weeks, sure, while the other is to tour the southern circuit where the weather will be heavenly all season. They just cannot make up their minds which to take. Both jobs are characters, you know, and they are tired of characters and would like a chance at some real work.

Surely, the friends understand perfectly, for they are on the horns of a similar dilemma themselves. And then, wishing many farewells, they hurry in opposite directions, accompanied by the same old weary look and the weary round of agencies continues until closing time.

This season the Rialto, throng is larger than for several years past. They are here from north, west and south, from Canada and as far west as the Pacific Coast. Last year was an exceptionally hard one on road shows. The trail was dotted early in the season with their whitening bones, and for that reason hundreds of men and women came to town earlier than they ever did before to "get in on the ground floor." Because of last winter's disasters Chicago rather lost prestige as an engagement

A DELIGHTFUL OUTING

Fell Travelers No. 1 Guests of Fellow Members at the Beach

The first section of the Ebell travel class had one of their jolly outings yesterday.

The families of three members—Mrs. C. H. Dawes, Mrs. Stephen Ross and Mrs. Geo. S. Smith—are occupying their summer homes at Newport Beach and they invited their fellow travelers to come down and bring their husbands and spend the day.

The party motored down, twenty-five in number, and had a most delightful day. A picnic luncheon, both bounteous and delicious, was served at the Dawes cottage. It was prepared by the ladies of the club, each being assigned to her specialty, and the result was a feast fit for the gods.

The large living room was converted for the day into a dining room, and a decorative color scheme of blue harmonized beautifully with sea and sky. The blue and white imported tablecloths were much admired and the "blue andalusian pressed chicken" tasted suspiciously like the good old yellow-legged variety. One lady remarked that there was no "delusion" about her's.

The company gathered at the Ross cottage before luncheon and there was a free-for-all race to the Dawes cottage. Mrs. Bishop won and received as a prize a beautiful blue Newport pennant. Mrs. Kendall's second prize was a mermaid which looked very much like a Chinaman and an Irish fairy. Mr. Smart was consoled with a bottle of "ketchup."

Mrs. Baumgartner, the class leader, got a tip that yesterday was Mr. Geo. Smith's birthday, and she proposed a toast to "that jolly good fellow, who came into this world naked and bare, who'll go out of this world, I wonder where; but he's a thoroughbred here and he'll be a thoroughbred there."

Mr. Smith responded feelingly—that is, he was feeling for something to say, for of course he was taken completely by surprise. He said a good many things before he got through, the most important of which was the admission that he was twenty-six years old.

In the afternoon the party motored to Balboa and had a delightful launch ride all over Newport bay, as the guests of the hosts of the occasion.

SHAW-MORRISON

Well Known Young Man of Santa Ana Marries Attractive Girl

The culmination of a romantic courtship extending over many months occurred last night when Tedford C. Shaw, the son of Postmaster and Mrs. L. L. Shaw, of this city, married Miss Jennie Marie Morrison of Lincoln, Nebraska. Mr. Shaw first met Miss Morrison, attractive and good looking, when she was visiting Mrs. Barrie McPhee, at that time Miss Helen Neff. Friendship ripened into love, ending in the pretty union of last night.

The ceremony took place in the lovely new bungalow which Mr. Shaw has just finished for his bride at 1029 West Fifth street. Mrs. Nat Neff sweetly rendered "Dear Heart," followed by Mrs. Barrie McPhee, who played the wedding march. As the strains of the march died away the bride couple entered and took their places in a bower of ferns and marguerites. Rev. Staff of the Congregational Church pronounced the words which made the happy young couple man and wife. The impressive ring ceremony was used.

The bride was simply but beautifully dressed in a gown of crepe de chine trimmed with imported Bohemian lace and rhinestones and made with train. She carried a bouquet of brides' roses and maiden hair fern.

After the ceremony the guests inspected the beautiful new home and the many expensive and useful wedding presents. They then adjourned next door to the home of the groom's parents, where a delightful two-course wedding supper was served.

About forty-five guests were present.

only the immediate relatives of the bride and groom being invited. Both the bride and groom are well known here, the bride having won a large circle of friends while visiting here, who are very much pleased to know that she will make her home here. The groom is one of Santa Ana's most popular young men, having grown up in the city and having gained his education in the schools here. Numerous friends wish them a long and happy life.

Jolly Social Held

The Intermediate and Christian Endeavor Societies of the United Presbyterian Church held one of their enjoyable socials last night at the home of the pastor, Rev. Samson, at 216 Orange avenue. The parlors of the parsonage were beautifully decorated with cut flowers, games and contents of various kinds made the evening speed by all too soon. Refreshments of ice cream and cake were served at the close of the evening's merry-making. About fifty-five or sixty were present.

Will Drive to Chicago

Mrs. L. Burns and her two daughters, Ardis and Mary, and her son, Irving, start next Wednesday in their automobile for Chicago. They will travel over the southern route, passing through Arizona and New Mexico. They expect to travel by easy drives and to visit the points of interest as they desire. They will stop at the Grand Canyon for a short time.

Irving Burns, who will drive, is probably the youngest boy to make this long and difficult drive. He is 15 years of age at the present time. He is a well known and popular student at the Santa Ana high school.

Music and Games

Huntington Beach News: In honor of Miss Laura Groshong of Fallbrook and Miss Ida Conkle of Santa Ana, an evening of music and games was enjoyed Monday at the home of Mrs. S. B. Ferguson on Alabama avenue. The affair was in charge of the hostess, assisted by Miss Frances Matthews, and proved to be a distinct success. Refreshments were fried chicken, salad, sandwiches, cake and punch. Christian Endeavor songs occupied the final hour.

Birthday Surprise Party

A number of Prof. J. W. McCormack's friends carried out a surprise on him last evening at his home at 108 Church street, the occasion being his birthday. Guessing contests, games and conversation served to pass away the evening. Two-course refreshments were enjoyed. About two dozen guests were present.

Dinner and Whist Party

Mr. and Mrs. W. E. Winslow entertained at their home at 712 Bush street last night with an informal dinner and whist party. The two-course dinner, at which covers were laid for thirty-eight including the host and hostess was served at 7 o'clock. Hydrangeas were profusely used in the decorations on the table and in the parlors.

Whist was played during the evening. Mrs. Kendall won the ladies' first prize and Mr. Nau was the winner of the gentlemen's first prize. Mrs. Ben Turner captured the ladies' second prize and Mr. H. O. Egge won the second gentlemen's prize. Miss Davis took the ladies' consolation and Mr. Ben Turner the gentlemen's consolation prize.

The guest list was as follows: Messrs. and Mesdames Elmer Burns, J. W. Bishop, George Balderson, L. J. Carden, H. O. Egge, Kendall, Nau, Rorer, P. H. Reynolds, H. H. Reeves, R. S. Rice, F. G. Taylor, Ben Turner, L. and Miss Boyd, Miss Chilton, Miss Davis, Mrs. Alice Harris, Dr. and Mrs. Clark, Mrs. Tubbs and Lester Tubbs.

Surprise C. E. Officers

The county officers of the Christian Endeavor Society successfully planned and carried out a surprise on Herbert Rankin at his home at 2050 North Main street. Howard E. Gates engineered the happy surprise. Mr. and Mrs. Rankin were out at dinner and when they returned found the house lighted up and occupied by a number of their friends. The surprise can be imagined better than described.

Mr. Rankin was presented with a beautiful floral piece of four-leaf clover design. Refreshments of ice cream and cake were served by the guests.

Those present were Mr. and Mrs. Rankin, Mr. and Mrs. H. E. Gates, Mr. and Mrs. Ashley; Misses Pearl Cartwright, Etta Deardorff and Alice Grimshaw.

Personals

Miss Electa Lamkin, who has been staying with her sister, Mrs. Heard, on E street, went to Santa Monica yesterday for an indefinite visit with her brother, Ward Lamkin.

Miss Floy Pemberton of Downey is visiting at the home of E. A. Clardy, 1048 West Washington avenue.

Mrs. H. R. Bristol and daughter, Miss Marian, Mrs. H. P. Stafford and daughters, Dorothy and Helen, Mrs. Laurence Bristol and son Horace, and Mrs. Ray Petty were down from Los Angeles yesterday to attend the Morrison-Shaw wedding.

Mrs. Maurice Yarnell is visiting with friends in Los Angeles and Long Beach.

Elmer Trueblood of Whittier is spending the day with his cousin, Mrs. Josephine Reed of Wellington avenue. Mr. Trueblood is looking for a location in Southern California.

The friends of Mrs. H. M. Hamilton of 1002 French, will be glad to know she is recovering from a recent attack of heart trouble.

Mr. and Mrs. W. H. Newcomer and Miss Olive have moved to Garden Grove, and the home at 918 F street will be occupied by Mr. and Mrs. Roger Newcomer.

Elks Will Picnic

Arrangements are completed for the picnic to be given by the Santa Ana Elks for their ladies, at Balboa on Wednesday afternoon and evening, July 30.

The pavilion, boats and other means of pleasure have been secured for the afternoon and evening, and Balboa will belong to the Elks during that period of time. Trips may be taken around the bay, to Rocky Point and Corona del Mar. At the latter place, dinner will be served in the evening, about 6:30 or 7 o'clock. Arrangements will be made for ample transportation facilities, both in the afternoon and for those who wish to go after closing hours in the evening.

Music will be furnished in the evening by a pavilion orchestra and the guests may dance or amuse themselves in whatever way best suits their fancy. Needless to say a delightful time is anticipated by the local Elks and their families and any friends.

AMUSEMENTS

Got His Question Answered

Bill Jones (any other name would do as well) was one of a party of seven who attended the first seance given by Mme. Tangley in Santa Ana last Monday at the Bell Theater, and they all wrote questions, two of which were answered. The same party of men have attended every one of the seances since, and last night Bill went out shouting that he had his question answered, and that Pearl Tangley was a wonder. There remains only two nights more for you to have your question answered as the great mental wonder will not be here after Sunday night. New pictures and a big musical act fill out the bill at the Bell tonight and Sunday night.

New Dwelling

Anaheim Plain Dealer: L. Dahlman is having a fine dwelling of the bungalow style, constructed on the ranch just east of town on the Olive road, the cost of which will be about \$3500. D. W. Anderson has the contract and the Gibbs Lumber Co. is furnishing the building material.

Sells His Ranch

Anaheim Plain Dealer: T. Schultheis has sold his ranch on North Lemon to a new-comer from Kansas for a consideration of around \$1000. The property consists of two acres, mostly set to oranges. Mr. Schultheis will go to Oregon next month and take up his residence somewhere in the Willamette valley.

Building California State Highway As now in effect the California state highway consists of a four inch concrete base of rich concrete mixture, on which there will be a surface of liquid asphalt and sand less than an inch thick. This with the grading and preparing of the sub-surface means a cost of from \$5000 to \$8000, according to the difficulty of the grading and the cost of broken rock—Pacific Motoring.

ATTENTION, ELKS!

Those who will attend the picnic at Balboa on Wednesday, July 30, will please meet at Elks Hall at 2 p. m. of that day, where conveyances will be provided. Those having conveyance of their own and who can accommodate others than their own family or party will please notify the committee. Badges will be furnished to all Elks and their ladies. A charge of One Buck (real coin of the realm) from each Elk attending, for badges for himself and party, will be the only expense of the trip. E. S. MORROW, Chrm. Com.

SLIT TROUSERS FOR MEN NEXT THING ON CARD

PITTSBURGH, July 26.—A Fifth avenue tailor, rather well known in Pittsburgh for preciseness in male fashions, predicted today that men will, in a short time, be wearing slit trousers, prototype in their own way, of the female slashed skirts.

"I have too large a conservative clientele to come out with the slit trousers myself," he said. "I don't want a reputation for freakishness, but I believe that in a very short time men in the large cities all over the country will be wearing trousers slit at the sides. And it will probably mean that they will have to take to wearing stockings, for the slits will likely go to the knee."

"Too long have women enjoyed the privilege of sumptuary. Their too long have men sweetered in dark woolsens when the mercury was flirting with the top of the thermometer."

CONNECTICUT VETERANS DEDICATED MONUMENT

BERLIN, Conn., July 26.—State camps of the G. A. R. and camps from a score of other states were represented here today when local civil war veterans and Berlin officials joined in the fiftieth anniversary of the dedication of the first monument erected to soldiers who fell in the Civil War. President Wilson was among those invited to attend and deliver addresses, but press of business in Washington, it was feared, would not permit his attendance.

MOTORCYCLISTS CLOSE FOUR DAY MEETING

DENVER, Colo., July 26.—After four days of business sessions, the 2000 delegates to the annual convention of the Federation of American Motorcyclists left today for their homes in Indiana, Iowa, Kansas and Nebraska. The majority of the delegates are returning as they came—on their machines.

SECOND LEPER FOUND NEAR SAN BERNARDINO

SAN BERNARDINO, July 26.—Jose Garcia, a leper captured in the vicinity of Ontario, was brought to the county hospital pest house yesterday. The officers were afraid to touch him and pushed him into a wagon with a boathook.

When captured, it was believed that Garcia was the Mexican leper, Juan Araiza, who escaped from the pest house several weeks ago, but this proves to be a new case. Araiza was arrested at Chino.

UNCLE SAM PAYS RENT FOR CANAL ZONE STRIP

WASHINGTON, July 26.—The first payment of the \$250,000 to Panama for the annual rental of the canal zone was made yesterday. The payments are in addition to the \$10,000,000 paid in cash to Panama nine years ago. Today's installment was actually due last February, although it was deferred for determination whether it should go to Panama or the parent state, Colombia.

MOOSE TO DEDICATE \$5,000,000 SCHOOL

AURORA, Ill., July 26.—Thousands of members of the Loyal Order of Moose of America are here today for the preliminary gathering which precedes the formal dedication of Mooseheart tomorrow. Mooseheart will hereafter be the site of the proposed \$5,000,000 industrial school for children of Moosemen. A memorial shaft erected on the old Brookline farm at mill creek marks the center of the acreage purchased for the school. The services tomorrow will be held at its base. The purpose of the great Mooseheart school is to give the children of members the benefit of an education at minimum cost. Children of dead members will be educated free. One of the foremost workers in establishing the school has been Dr. J. O. Rondthaler, former Presbyterian minister of Chicago and Anderson, Ind. The latter city has, up to the present time, been the headquarters of Mooseheart. Vice President Marshall, a Moose, is expected to arrive here late this evening or early tomorrow to deliver the principal address.

NEW LEGISLATION WILL BE IMPORTANT TO SOUTHLAND

Digest of Some Leading Measures Which Will Become Part of the Statutes August 10

Of the many bills passed by the last session of the legislature which go into effect August 10, 90 days after adjournment, there are a number which are of peculiar interest to Southern California. The Los Angeles Tribune has prepared the following digest of some of the most important, which will be of interest just now:

Citrus Experiment Station
The establishment of a citrus experiment station was strongly urged by the fruit growers of the southland as of paramount importance to the development of the citrus fruit industry. Hitherto the industry has grown on a sort of hit-or-miss policy, and the fruit men have come to learn by costly experience the necessity of scientific expert aid such as can be afforded only through a properly organized experimental station.

With assurance of aid from Governor Johnson, three bills were introduced with a view of establishing under the control of the University of California a citrus experiment station second to none in the entire country.

One bill, introduced jointly by Senator Thompson and Assemblyman Johnstone, called for an appropriation of \$60,000 for the purchase of 200 acres of land, "situate in any of the counties of Los Angeles, Riverside, Orange, San Bernardino, San Diego, Imperial, Ventura or Santa Barbara."

A second bill, introduced by Senator Cogswell and Assemblyman Cram, provided for an appropriation of \$25,000 for buildings.

A third bill, introduced by Senator Mott and Assemblyman Ellis, provided for an appropriation of \$100,000 for the main laboratory of the citrus experimental station.

structed navigation; to provide access to the harbor by public streets and to prevent the obstruction of such streets; to fill and improve tidal lands between the mainland and harbor lines.

By Hewitt, ratifying the acts of the attorney general in bringing and prosecuting suits to quiet title to and for the recovery of the possession of harbor lands.

By Hewitt, authorizing Los Angeles to grant portions of the harbor lands to the federal government in return for federal lands needed in connection with the construction of a municipal wharf.

By Hewitt, giving the city of Los Angeles the appointing power of port wardens and pilots; the appointing power is now lodged with the state.

Exposition Building
To complete and equip the exposition building in Exposition park, Assemblyman Kuck introduced a bill calling for an appropriation of \$60,000. It was signed by Governor Johnson, and the city will be enabled to complete its exposition building here in time to give Los Angeles an added attraction during the rush of sightseers to the Panama-Pacific exposition.

Hospital For the Insane
There has been a long-standing demand for the establishment in Southern California, preferably near the coast, of a hospital for the insane. Senator Hewitt this year obtained favorable action on his bill to appropriate \$250,000 for that purpose. It was also signed by Governor Johnson.

Additional Judges
Los Angeles county for years has had to get along with a fewer number of judges—a third less, in fact, than San Francisco, although Los Angeles has a larger population than has the northern city.
A bill was introduced by Assemblyman Woodley increasing the number of superior court judges by six—making eighteen in all. Governor Johnson gave this bill his approval, and soon after August 10 will designate six new judges for the Los Angeles bench.

Los Angeles Normal School
Among the bills relating to the Los Angeles Normal school which were passed by the legislature and approved by the governor were the following:

By Senator Cogswell, appropriating \$55,000 for equipping the new building.

By Assemblyman Woodley, appropriating \$10,000 for the purchase of additional land for the school.

By Assemblyman Woodley, appropriating \$2500 for the construction of bleachers on the school playground.

By Senator Cogswell, appropriating \$8000 for additional salaries.

By Senator Cogswell, appropriating \$2500 for the purchase of musical instruments.

By Roberts, ratifying the purchase of the new Normal school site.

By Woodley, for the widening of Vermont street in front of the new site.

Miscellaneous
Other legislative acts which become effective August 10 are the following:

By Senator Butler, appropriating \$25,000 for the completion of the Los Angeles College of Medicine.

By Senator Gates, appropriating \$7000 for the completion and furnishing of the Los Angeles National Guard building.

By Senator Cogswell, appropriating \$50,000 for improvements at Whittier state school.

ALASKA AND ASIA
LINKED BY WIRELESS

NOME, Alaska, July 26.—Direct wireless communication between America and Asia is now an accomplished fact, the United States army signal corps station here having been in nightly communication since Sunday with the Russian station at Anadyr, Siberia, 500 miles west of Nome.

Communication was established Sunday night and a message from Baron Kleist, governor of the Siberian province of Kamchatka, who visited Nome a short time ago, was transmitted extending congratulations on the establishment of wireless communication between Asia and America.

The Russian government operates a chain of four stations between Anadyr and Vladivostok and for the last six months the signal corps operators here have been trying, under orders from Washington, to establish communication with the Russian stations.

BEET HARVESTER FACTORY PLANNED FOR SANTA ANA

There is a movement on foot to build a plant in Santa Ana for the manufacture of the Fowler beet harvester.

The Southwestern Manufacturing Company of Los Angeles, had quite a representation of the beet growers of the valley out yesterday to see the machine in operation on the Nelson and Robertson ranch near the Co-Operative Sugar Co. factory. The machine topped the beets very nicely, and with the puller and elevator attachment it makes a complete harvester. Combined, it will top, pull and dump the beets in piles of 200 pounds, and can be handled with four horses and one man. Each disc and knife will top one row.

These machines are made up to four-row capacity, and each set of discs and knives will harvest three acres per day at a cost of \$2 per acre, while by hand labor it costs around \$10 per acre.

The Fowler Beet Topper is the result of years of experiment, and has been given every test to which a machine of its kind might be subjected, with very satisfactory results. Its practicability has been demonstrated in the beet fields of Colorado and California, and it is the only toppler or harvester which will pull beets in condition to be accepted by the various sugar factories.

At present the grower has to content himself with topping beets by hand, which is a very expensive process. Beets topped by this machine can be seen at the Chamber of Commerce, showing how even it topped the different sized beets, big, little and small, all alike.

In speaking of the proposition to establish a factory in this city, Mr. Fowler said today that he could see in this city many advantages over Los Angeles as a site for a factory.

"Of course," said Mr. Fowler, "in some respects Los Angeles would have the advantage, but on the whole I believe Santa Ana is the best place in California for us to locate. Orange county is the greatest sugar beet growing county in the state; the climate here is ideal; you have no seasons; with the exception of Los Angeles your transportation facilities are (or soon will be) the best in Southern California."

"No, we have no definite plans made, nor any specific proposition outlined. We are discussing the matter with the beet growers and sugar factory people, and the Chamber of Commerce is considering it carefully."

ALASKA AND ASIA
LINKED BY WIRELESS

NOME, Alaska, July 26.—Direct wireless communication between America and Asia is now an accomplished fact, the United States army signal corps station here having been in nightly communication since Sunday with the Russian station at Anadyr, Siberia, 500 miles west of Nome.

Communication was established Sunday night and a message from Baron Kleist, governor of the Siberian province of Kamchatka, who visited Nome a short time ago, was transmitted extending congratulations on the establishment of wireless communication between Asia and America.

The Russian government operates a chain of four stations between Anadyr and Vladivostok and for the last six months the signal corps operators here have been trying, under orders from Washington, to establish communication with the Russian stations.

YUCAIPA VALLEY AS A SUMMER RESORT

It has not heretofore been so advertised, but Yucaipa has such a delightful summer climate that people actually go there to escape from the heat in the lower valleys and enjoy the shade and cool of the nearby canyons. And the green of the magnificent orchards, and the wealth of summer fruits makes it attractive at this season of the year. You ought to see the valley now in all its glory. The improvements and developments go on apace, the finest in Southern California. Truly it is a "Valley of Opportunity." Eleven thousand acres in our tract, all under irrigation. Yucaipa is strictly a high class proposition, in location, in soil, in its irrigation system, in its products, and no experience. Go with us on a one day trip by rail and automobile and see for yourself the very best proposition in Southern California. We go up every week. Only 64 miles away. Only \$2.40. Phone 970 W.

LOS ANGELES PRODUCE MARKET

Lemons fell off a little yesterday. The decline was unexpected. It was probably due to the recent cool weather. Advances to as high as \$10 a box for fancy packed stock were recently anticipated, and should the weather prove warm later on, this expectation may be realized. The fundamental cause of the high market this season has been the light crop. Peaches come in quite freely from the north. A large shipment of early Crayfords was received, and met with good demand. Apricots are firm, because of the scarcity due to the passing of the season. Plums were in good supply, as usual.

Cantaloupes show firmness. Imperial receipts are practically over, and "locals" constitute the bulk of the supply. Some "ponies" were offered at a little easier prices yesterday. Local cantaloupes are quoted generally around \$1.50 to \$1.75 a small crate, and \$3 to \$4 for large crates. Casabas remain at rather high prices. Watermelons were a little stronger.

Bell peppers became a little more firm. Local Telephone peas are rather high, because of their scarcity. The demand is also good. The tomato market is in better shape. Corn is received quite freely and is cheap. Mexican sweet potatoes attract considerable interest; they are quoted at 5 cents a pound for the white variety, and 6 for the yellow, pretty generally.

There were no changes in butter, egg and cheese prices. The market on all three products appears to be about steady, although further advances are likely soon.

Young Man Who Passed Forged
Check on Saloon Brought
Here to Face Charge

Ray W. Perry, aged 21, was located in the county jail at Fresno nearly six months after he passed a \$50 forged check in a Newport Beach saloon, and yesterday was brought from the jail of Fresno county to the jail of Orange county. This morning he was arraigned before Justice Cox and his preliminary examination was set for Aug. 14.

The complaint against Perry was sworn to by J. W. Walls. The check was for \$50, drawn on the Security Trust & Savings Bank of Los Angeles, and the name Allen Craig was forged to it.

Perry, at that time 20 years old, bought liquor at the saloon and had the check cashed. At one time he worked in the oil fields near Fullerton. He was brought here from Fresno by Constable Charles Young of Fullerton.

Asleep in Box-car

Jesse L. Ward and Milton Brown were taken from a box-car last night by Officer Woodruff. This morning they pleaded guilty to vagrancy, and on Monday they will be sentenced. One of them told a story about having a motorcycle, but afterward denied that he had told the truth. His hands are black from grease, and the officers think he may have abandoned a stolen machine somewhere, but as yet they have nothing to show that to be the case.

PREPARING TO MOVE THE FIRST OF AUGUST

ORANGE, July 26.—The Pacific Telephone Co. is preparing to change its quarters from the Watson Drug Store to the new location in the Odd Fellows building. A new switchboard is being installed to handle the business, and a great improvement in the service will result from that and other changes to be made here. The company expects to make the change in quarters the first of August.

AT THE COURTHOUSE

NOT IN NEED OF GUARDIAN

Woman is Able to Take Care
of Her Property

Though Mrs. Ann Titus of Yorba Linda is 91 years old she is able to take care of her property. Some of her friends thought she needed a guardian, but Mrs. Titus and some of the rest of her friends could not see it that way and they convinced Judge West that they were right in the contention.

W. P. Ong was the petitioner. He affirmed that some of his family had been acting as adviser for the woman, and that she had declined to take their advice to accept a loan of \$1500 on her property. That was one reason they thought she was too old to take care of her property. The testimony showed that the woman is confined to her bed with a broken hip.

Attorney R. Y. Williams appeared for Mrs. Titus. Minnie G. Lee, a nurse who has been caring for Mrs. Titus, declared emphatically that Mrs. Titus' mind is clear, and that she needs no guardian. Mrs. Frank Davis and Jack Davis, neighbors, also testified that the aged woman's mind is sound. Ong's petition was denied by the court.

Decree of Divorce
Judge West yesterday granted an interlocutory decree of divorce to Lillian Walter of Anaheim against Ralph Walter. Weisel & Dutton represented Mrs. Walter.

Has Claim of \$250
Today Attorney W. W. Clary of Los Angeles applied for letters of administration on the estate of Francisco Sanchez, who was killed while at work for the American Glass and Co. at Horse Shoe Bend in the Santa Ana canyon on Dec. 18, 1912. The estate consists of a claim of \$250 against the company on account of the injuries received. The petition speaks of Horse Shoe Bend as the "Town of Horse Shoe Bend." The heirs are a widow and child of the deceased. They live at Uringato, Mex. The widow's full name is Maria Villa Gomez Soledad Sanchez.

Marriage Licenses
Lafayette T. Sullivan, 21, and Esther M. Edwards, 18, both of Anaheim; Eugene Singer, 21, and Dorothy P. Rosine, 26, both of Los Angeles.

Marriage Licenses
Tedford C. Shaw, 29, and Jennie M. Morrison, 20, both of Santa Ana; Frank R. Reding, 23, and Abbie A. Muckenthaler, 22, both of Anaheim.

**JESSIE WILSON WILL
RECEIVE MANY GIFTS**

WASHINGTON, July 26.—Despite President Wilson's attitude in discouraging the gift of the Baltimore Democrats to his daughter, Jessie, at her wedding next November, to Francis B. Sayre, king and prince of foreign countries will seize the opportunity to flood the White House bride with costly gifts.

The occasion of a marriage of a President's son or daughter is the only one in which heads of foreign governments can get around the American constitution, which forbids the accepting of personal gifts from the rulers of foreign nations. Gifts from foreign potentates on such occasions naturally cannot be discouraged or returned.

**PLANNING REORGANIZATION
OF WEATHER BUREAU**

WASHINGTON, July 26.—Reorganization of the weather bureau is soon to be made as a result of a report to be made today by Secretary Houston by a special committee appointed some time ago to investigate the workings of the bureau. The committee consisted of E. H. Dowie, C. F. Marvin and E. B. Calvert. Economies will result in certain lines by doing away with duplications and the secretary believes greater efficiency will result.

No successor to Willis L. Moore, dismissed as head of the bureau some time ago, has yet been announced, though a man has been selected.

Elijah, Mrs. Ray Handy, Miss Anita Willets, Miss Amy Clark, Mrs. W. O. Hart and Mrs. G. E. Hart.

BAR ALL BUT WHITE ALIENS

Senator Newlands Would Also
Restrict Suffrage Right to
the One Race

SAN FRANCISCO, July 26.—United States Senator Francis G. Newlands of Nevada announced here that he has taken a stand squarely against the naturalization of aliens who do not belong to the white race, and in favor of measures to prevent in this country any mixture of races differing in color.

Answering a question regarding the alien law and the problem back of it, Senator Newlands said: "I believe that immigration to this country, except for purposes of commerce, education and travel, should be confined to people of the white race and that we should confer citizenship upon none but people of the white race."

"I also believe that we should write the word 'white' in our constitution, and restrict suffrage to the people of the white race, at the same time making humane provisions for the industrial training and education of the blacks within our borders in such a way as to aid them in maintaining, at some time in the future, an individualized national life, through assimilation to some part of Africa especially prepared by scientific development for their occupancy."

"I see no reason why, ultimately, this unfortunate people, as yet a race of children, should not by a gradual process extending over many years, be restored to the land from which they originally came, and which is now regarded as a land of opportunity, even for a white man."

"The whole tendency is toward race segregation, so far as races differing in color are concerned. The mixture of races differing in color is the greatest menace to American civilization, and we should not only guard against an increase of it, but by wise and humane policy, diminish the evils under which we are suffering."

"The race question is a blight to the South, and unless we take hold of it intelligently, the segregation will take place upon our own soil, and the South will eventually become almost exclusively dedicated to the black race."

**GOVERNMENT INSPECTOR
USES FLYING MACHINE**

DULUTH, Minn., July 26.—What is said to be the first inspection of government works about the great lakes from a flying machine was made late yesterday by Chief Assistant Engineer John H. Darling of this district. When the engineer prepared to make his inspection of the harbor extension it was found that the government launch was already in service.

Tony Jannus, whose hydroaeroplane flights are being featured in the Lark o' the Lake celebration, offered to take Mr. Darling on a flight about the harbor, and the engineer accepted the invitation.

LABOR SECRETARY WANTS AUTOMOBILE

Likely to be Small Stir in Congress Over Demand of Wilson

WASHINGTON, July 26.—A stir was caused in the house yesterday when it became known that Secretary of Labor William B. Wilson had asked congress for a \$5000 touring car for his personal use, a \$2500 electric automobile to be used for personal and official purposes, and a \$1500 electric truck for the official business of the new department of labor.

It was stated that strong opposition will be voiced on the floor of the house to Wilson's proposal. Democrats of the so-called "economy squad" prepared to raise parliamentary objections as soon as they get the opportunity. The house committee on appropriations is now preparing a draft of an urgent deficiency bill, in which it is proposed to include items for the automobile.

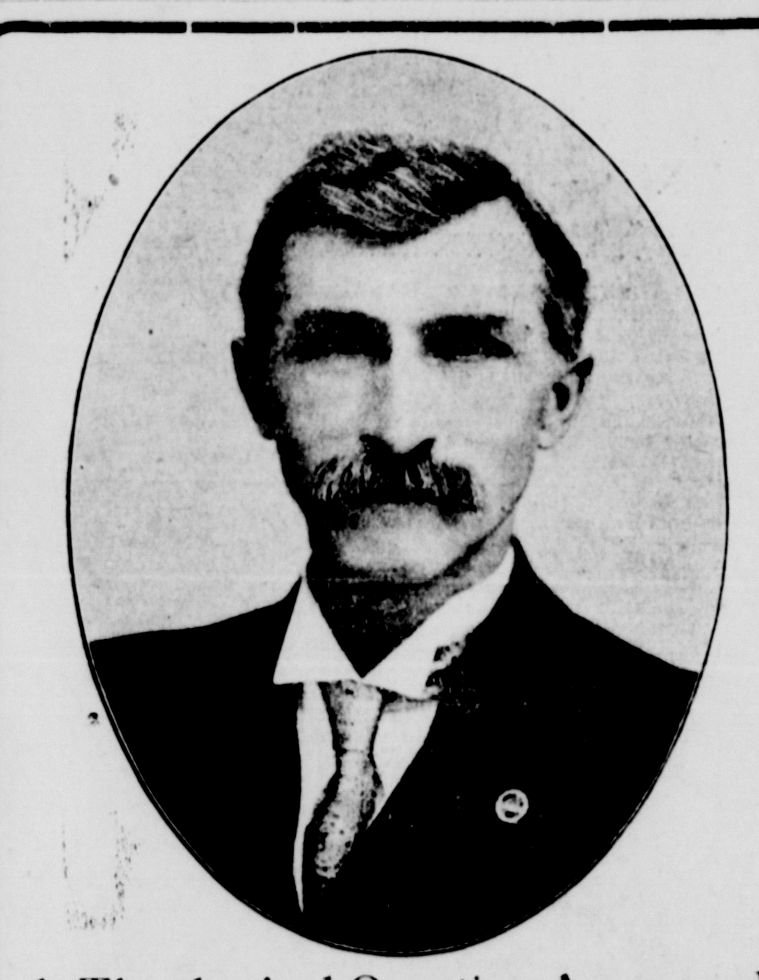

The ordinary course of handling such matters as these is to place them in an item labeled "contingent fund," where they are not subject to points of order. It is said to be the intention of members of the subcommittee which is drafting them to specify each automobile as a separate item, in which event any member of the house could amend them by moving a cheaper grade of car, or they might be stricken out altogether on a point of order.
